## OBJECTIVE

To obtain a position in post production that will allow me to be creative. To help design the look and feel of shows and campaigns.

## SKILLS

Edit | Visual Effects | Sound Design | Mix | Color | & other bits and bobs

## SOFTWARE

Premiere Pro • After Effects • Final Cut Pro • Motion • Photoshop • Compressor • Xcode •  
Topaz Video Enhance AI • and a bunch that don't exist anymore.

## AWARDS

2 Emmy Awards, 15 Telly Awards, 5 Aegis Awards, and 2 Summit Awards.

## EXPERIENCE

For the past 25 years, I have worked in post production as an editor and visual effects artist. I ran a small post production facility where I scheduled the editing teams, supervised the productions and liaised with the clients. I have experience in all aspects of production creating budgets, staffing crews and solving problems. I taught myself to code and had several iPhone apps for sale on the app store. But my passion is post production and helping to create the magic after everything is in the can.
